

Virtual Interpreting

The solution when on-site interpreting is not an option

**Ensure your Deaf student
has the best experience
with a virtual interpreter
from Interpretek**

For virtual interpreting sessions, also known as Video Remote Interpreting, the interpreter joins you and the consumer via a computer or tablet. You and the consumer can be on-site together or virtual. Simply have the technology directed at the Deaf consumer while the virtual interpreter hears you and interprets the interaction!

■ To provide the best experience we...

- Customize services to meet the needs of your Deaf student
- Provide qualified interpreters that specialize in educational interpreting services
- Ensure interpreters are qualified to work according to your state laws and requirements
- Are knowledgeable in ADA laws and FERPA compliant

■ Our full service approach...

- Explains how to request virtual interpreting services
- Addresses equipment and Internet requirements
- Recommends best practices for a successful end-user experience
- Offers Over the Phone Interpreting (OPI) with over 200 languages and dialects available on demand 24/7

■ The virtual platform is...

- A secure program
- HIPPA compliant
- Supports third party vendors (Zoom, Teams, etc.)
